Key Insights & Recommendations

Insights

- Trips recovered after early dip and peaked mid-year
- Revenue remained stable across months
- Bangalore is top-performing city (profit & trips)
- Mumbai shows lowest profitability
- Fleet A leads in earnings and profit
- Fleet C needs improvement
- Hiring peaks in September
- Mid-year inactivity increases
- TPH consistent across fleets
- High acceptance rate (~85%)

Recommendations

- Improve performance of low-ranking fleets
- Optimize fuel costs in high-expense cities
- Focus on driver retention mid-year
- Use surge pricing strategically
- Expand in high-performing cities
